MEMBERSHIP BENEFITS

www.superformance.org

The Superformance Owners Association® was created on September 1, 2000 to bring increased communication, value and support to Superformance owners around the world, and is privately owned, operated and funded for the sole purpose of providing benefits to Superformance Owners.

Why Join SCOF? There are three parts of Superformance ownership... One, Buying it. Two, Driving It. And Three, Celebrating Life with it. The latter is done through SCOF. If you are weekend cruiser, road trip adventurer, track day enthusiast or veteran racer, **SCOF has you covered!** And whether you are an experienced technician, shadetree mechanic, mechanically challenged, or have no idea what you are doing... **you need to belong to SCOF!**

Tech Support: While the dealers and the factory really know their stuff, the many professionals that we have on SCOF drive these cars everyday, everywhere, all the time and around the world. There is no one that knows these cars as well and as intimately as the SCOF guys and gals do. The Superformance automobile is the best engineered and finest constructed car of it's kind on the market. But like any machine, they require maintenance and there are a myriad of upgrades that can be added to suit your use and tastes. The problems are rare but they happen for everyone and the odds of you having an issue that has not already been discovered and solved by our members, would be even rarer. Between the ever growing detailed **Tech Library** and the ability to ask questions and get answers within moments from fellow owners, technicians and even Dealers or direct from the Factory itself, SCOF is an invaluable tool and resource that will save you time and money.

Unrivaled Technical Library: SCOF's **Tech Library** is the best and most complete technical library for any Superformance, anywhere! There are many things you may not even have thought of that you will find you can really make use of in the SCOF Tech Library. With detailed and easy to understand instructions and pictures, SCOF can walk the relative mechanical novice through most repairs or preventative maintenance as well as inspire various upgrades and improvements to make your Superformance that much more enjoyable.

Enhanced Enjoyment of Ownership - the Forum: As much as owners need the tech advice, they value the SCOF Family even more. Lifelong relationships are created everyday on the SCOF forum. It is not just about the cars. It is about the people. The **SCOF Forum** is a place where many of us spend many hours each week, and more. It is the glue that holds everything together. It is like a cyber-pub where buddies come, just kick back and enjoy their company, tell stories and bare their souls. Enjoy fun debates, discuss driving stories, seek professional advice on every conceivable subject from medical care to best fertilizers for the lawn, tell jokes, share family challenges and victories, and about any other conversation you would have with your best friends! All in relaxing privacy. This informal and broad level of communication is what makes SCOF so special as opposed to other forums who are very well defined and the subject matter is very narrow or targeted and open to anyone. SCOF will help us enjoy our cars more but more importantly it helps us enjoy our lives. You will quickly find people you will think of as dear friends and as extended family, adding even more fun and value to your Superformance ownership.

Buying Power: As a group, when we find a product in which there is broad interest, we often negotiate a "Mass Buy" where a substantial discount is offered to our membership... from radar detectors to shifters to 4 post lifts and more, which has saved our members thousands of dollars each. We sometimes receive special considerations from vendors and occasionally even enjoy "private sales" for parts or miscellaneous merchandise from Superformance®. This one single benefit alone can save a member several years worth of membership fees with just one purchase.

Save Money, Save Time: Find all the right parts, numbers and sources for your Superformance using our exclusive **Superformance Parts Interchange™** section. Discover the most efficient operating, maintenance and repair tips & tricks, as well as the most valuable upgrades for your Superformance. *No one* has more collective experience than the accumulative knowledge of SCOF! Even if you have a trusted mechanic, chances are your Superformance will be new to them and the SCOF maintenance hints & advice will be just as helpful to them as it will be to you... and when they save time, *you save money!*

SCOF Events: There are up to 4 major events to enjoy each year. The *Winter Superformance Convention™* (WSC) is people oriented, The *Spring Superformance Roundup™* (SSR) is a car cruise event, The *Summer SuperCruz™* (SSC) covers long distance road trip touring, and the *Fall Superformance Roundup™* (FSR) is a fall foliage car cruise. Each has its own personality and quite different from each other, but all are equally as fantastic and memorable. In addition to these major events, there are many other associated held events attended as well. *SCOF events have covered over 65,000 miles and climbing.*

SCOF is there for you, 24 hours, 7 days a week, 365 days a year: No one knows these cars better than those on SCOF. Even the factory and dealers will often learn something new about these cars from the owners.... and it is all recorded right here on SCOF. The tech library alone is worth the cost of membership. As a matter of fact, any one feature of SCOF would be worth the cost of the entire membership. All you need to do is find one idea that enhances your enjoyment of the car or saves you a problem and you will have paid for the membership in real savings *many times over!*
